CatchFire Matching Engine — Status Report

Date: February 19, 2026

Project: cf-influencer-matching-engine

Version: v0.7.0

Node.js: v24 | **Vulnerabilities:** 0 | **Tests:** 123 total (79 unit + 31 smoke + 13 integration)

System Health

SERVICE	STATUS	DETAILS
Cloud Run	🟢 Online	Revision cf-matching-engine-00011-spz, us-central1
Firestore	🟢 Online	creators collection, 37 documents
Gemini AI	🟢 Online	gemini-2.5-flash
Embeddings	🟢 Online	gemini-embedding-001, 768 dimensions
Golden Records	🟢 Active	11 benchmark creators across 8 crafts
GitHub CI	🟢 Passing	Unit tests + type check + build + smoke tests

---

Database Statistics

METRIC	VALUE
Total Creators	37
Golden Records	11
Crafts Covered	8 (cinematographer, director, motion_designer, vfx_artist, colorist, animator, sound_designer, 3d_artist)
Platforms	5 (vimeo: 13, other: 18, behance: 3, artstation: 2, youtube: 1)
Embedding Dimensions	768

API Endpoints (21 Total)

Search & Discovery

- `POST /api/v1/search/semantic` — AI-powered semantic search
- `GET /api/v1/lookalikes` — Golden Record lookalike recommendations
- `GET /api/v1/similar/:id` — Find creators similar to a given creator

Creator CRUD

- `GET /api/v1/creators` — List/search/filter creators
- `GET /api/v1/creators/:id` — Get creator by ID
- `POST /api/v1/creators` — Add single creator (Zod validated)
- `POST /api/v1/creators/batch` — Bulk import
- `POST /api/v1/import/apify` — Apify scraper import with LLM categorization

AI / LLM

- `POST /api/v1/match` — Match creators to a brief
- `POST /api/v1/categorize` — LLM auto-categorize from bio
- `POST /api/v1/style-signature` — Generate style signature
- `GET /api/v1/llm/test` — Test LLM connection
- `POST /api/v1/embed` — Generate embeddings for a creator
- `POST /api/v1/embed/batch` — Batch embedding generation

System

- `GET /health` — Health check
- `GET /api/v1/stats` — Database statistics
- `POST /api/v1/feedback` — Thumbs up/down feedback

Web UI

- `GET /` — Beta Control Center (primary dashboard)
- `GET /dashboard` — Analytics dashboard
- `GET /testing` — Match testing UI
- `GET /app/*` — React SPA (How It Works, Browse Creators, Admin, Status)

Web UI Pages

PAGE	URL	DESCRIPTION
Beta Control Center	`/`	Primary dashboard: semantic search, service status, API endpoints, craft stats, Golden Records
How It Works	`/app/how-it-works`	Animated 6-step pipeline walkthrough
Browse Creators	`/app/creators`	Creator cards with craft/platform/location filters
Creator Profile	`/app/creators/:id`	Full creator details, style signature, similar creators
Admin	`/app/admin`	Golden Record management, toggle switches
Status	`/app/status`	Live service health checks, database statistics
Dashboard	`/dashboard`	Analytics and monitoring
Match Test	`/testing`	Brief → ranked match results with thumbs feedback

---

Recent Changes (2026-02-19)

COMMIT	CHANGE
`b802d92`	Switch to Nixie One serif font, remove legacy terminology
`02b44ae`	Add How It Works page, download/email buttons, multi-chip enhancement
`08e5ca8`	Add active/selected state to hint chips
`aa462c0`	Repair mojibake encoding across 28 files, update branding and authorship

---

Test Coverage

SUITE	TESTS	STATUS
Unit (vitest)	79	✅ All passing
Smoke (bash)	31	✅ All passing
Integration (vitest)	13	✅ All passing
Total	**123**	✅

Security Posture

CONTROL	STATUS
Helmet security headers	✅ Active
Rate limiting (express-rate-limit)	✅ Active
CORS configuration	✅ Active
Zod input validation	✅ All POST endpoints
npm audit	✅ 0 vulnerabilities
No hardcoded secrets	✅ All via .env

Known Issues

ISSUE	SEVERITY	NOTES
React pages silently swallow API errors	Medium	5 of 7 pages show blank on failure
CSS hardcoded values	Low	10px sizes, 5 raw RGBA values
No staging environment	Medium	All changes deploy directly to production
No user authentication	Low	Anyone with URL can access

Deployment Info

FIELD	VALUE
Service	cf-matching-engine
Project	catchfire-app-2026
Region	us-central1
Revision	cf-matching-engine-00011-spz
URL	https://cf-matching-engine-34240596768.us-central1.run.app
Last Deployed	2026-02-19

FIELD	VALUE
Deploy Command	`npm run deploy`
